Nawojowa,15.04.2024

LETTER OF REFERENCE

I confirm that Jakub Stapiński created the website for my company P.Electric in March 2024.

The collaboration went very smoothly. Jakub patiently listened to my expectations and proposed solutions that worked for me. When something did not match my vision, he quickly made adjustments. The website was delivered on time and looked professional. It displayed well on both desktop and mobile devices, which was important to me.

The final result met my expectations. The website served its purpose as a business card for the company, and customers could easily find information about our services and contact details.

I recommend Jakub as a reliable and communicative contractor.
